5KG **JDMSH5** **\$380.00**

With the Burger Press you can have perfectly formed 100mm diameter hamburger patties as fast as you can grind the meat or using the sausage stuffer. The high-tensile plastic and acrylic press uses the power from the grinder to press the meat into 3/4" thick, 1/3 lb patties. And with the pull of the slider, the patty is released onto your waiting wax paper. It can produce up to 20 patties per minute, depending on the grinder, or depending on your strength (with sausage stuffer), keeping your hands clean and bacteria-free.

JDMHPSS100 **\$120.00**

This hamburger patty press will produce quick formed hamburgers 100mm with waxed paper, All stainelss steel shell, integral holder for paper or film divider leaves, Comes with 500 waxed paper dividers, Fast and simply to operate.
